Care & Maintenance

Your Oxford furniture arrives in its natural state, without any oils or finishes. Upon completion of assembly, you may notice some staining from your hands, or possibly some water stains from shipping. Shorea is extremely dense, and therefore any staining will be only on the very surface of the wood, so any marks or abrasions can be easily removed by liberally sanding the wood with 100 grit, or medium, sandpaper.

Shorea is strong enough and weather resistant enough to be left totally untreated. If left alone, your furniture will weather naturally with time, turning a warm and soothing shade of gray. If you prefer to prevent this natural weathering, or to enhance the luster and color of the wood, you may seasonally apply a coat of teak oil. If you allow your furniture to weather, and later decide to restore it to its original condition, use a teak cleaner first, and then you may apply the teak oil. These products are available at most hardware stores and boat dealers, and are available through many Oxford dealers.

If the furniture is going to be placed on a concrete or tile patio, it should first be rinsed well to remove the sawdust that may cause some staining.

Parts List & Hardware

A	(1)	Table Top
B	(4)	Corner Posts
C	(8)	Metal Washers
D	(8)	Hex Nuts

About Shorea Wood

Shorea is a tropical hardwood that grows plentifully in the Pacific Rim countries of Burma, Malaysia, and Indonesia. Shorea is closely related to teak, and is therefore well suited for use in furniture making. It is renowned for its strength, durability, and beauty. Like teak, shorea has natural oils that allow it to withstand the effects of sun, rain, snow, and frost.

CD60TA 35 x 60" Dining Table

The Oxford Designs 35 x 60" Dining Table has five component parts - four Corner Posts and one Table Top. Tools needed for assembly --- adjustable wrench.

To assemble:

1. Lay Table Top upside down on a clean flat surface.
2. Insert the threaded rods on one Corner Post into holes located on one corner of Table Top.
3. Secure Corner Post to the Table Top using two Metal Washer and two Hex Nuts.
4. Repeat Steps 2 and 3 for the remaining 3 Corner Posts.
5. Carefully turn the assembled Patio Table in an upright position.
6. Using a medium grit sandpaper, quickly sand off any marks or stains. Sand to smooth off areas around the dowel pins.
9. Enjoy your new table!
